## A USE FOR FLANDERS MUD

Inhabitants of Recent War Zone Find It Makes Good Bricks.

ROULERS, Belgium, Dec. 13.—Flanders mud, the bane of all armies operating in Belgium, is of some use after all. Lime is practically unobtainable in Belgium today and in many of the ruined villages, the refugees are laying stones and bricks with mud for temporary shelter against the coming winter. Others fill the chimneys in their chimneys and walls with it, and altogether it is becoming as much of a comfort to the refugees as it was a handicap to the soldiers who lived in it for months.

Fourteen thousand dollars was subscribed at a mass meeting here today. It was learned tonight, and a committee was appointed to raise additional relief funds.

## Relationship With Farmers Sought by Labor Federation

WASHINGTON, Dec. 14.—American Federation of Labor officials made another effort today to establish relations with farmers' organizations, the federation's "co-operative committee" appointed at the Atlantic City convention meeting here with the representatives of several farmers' groups.

While only one delegate from a farm organization participated in the federation's "reconstruction conference," which opened yesterday, it was understood that the committee would make a report to the executive council of the organization.

In view of the declaration of principle adopted by the conference yesterday it was generally believed in labor quarters that the

co-operation committee had made greater progress toward a common ground on which to meet the farmers' representatives than has any previous union group. Organized labor was declared by several spokesmen to be anxious to get organized farmers in the fold for the campaign which the workmen plan to wage in the forthcoming election.

In this connection the statements made in the declaration adopted by yesterday's conference, appealing to all of those who contributed to society to unite in furtherance of the principles, were explained today by labor leaders to mean that organized labor must be joined by the "producing classes" if its victory is to be complete.

These leaders asserted that the problem faced by organized labor was as much the problem of the agricultural class because they are both political and economic.

It was pointed out that the labor movement is not a political party, but a social movement, and that it must be joined by the "producing classes" if its victory is to be complete.

## NEED TREATY RATIFICATION

Temps Comments in That vein On Meeting of Allied Leaders.

PARIS, Dec. 14.—All peace problems are now dominated by the necessity of obtaining ratification of the treaty of Versailles. The Temps says in commenting on the conference of the plenipotentiaries that in this connection it asks:
